PHARMACIST-MANAGER:

This permit is issued to you as the Pharmacist-Manager pursuant to the representations in the Certificate of Successor as Pharmacist-Manager, which carries with it the same responsibilities as the representations made in the application for renewal (or original issuance) of the permit.

Once the certificate has been printed, it must be countersigned by you, as the Pharmacist-Manager. This permit is not valid until countersigned in the space provided on the face of the permit. After signing, the permit must then be posted in the pharmacy to which it applies, as required by the Board's Rules and Regulations.

Board Regulation .2502 (c) requires an inventory of controlled substances within ten days of a change of pharmacist-manager.

Thank you,

Missy Betz
