

RECIPROCITY PROCESS

Step 1:

Go to NABP's website (nabp.pharmacy) and complete their *License Transfer Application*. There is a two-step application, you submit the preliminary application online, that takes 4-6 weeks to process and then they will mail the NABP Official Application. Once you receive the NABP Official Application, there will be three items for you to complete.

Step 2:

Go to our website and create a profile. Once you've created a profile, you'll have access to our state Reciprocity Application. An aspect of the state application is an electronic upload of the NABP Official Application and a payment page to pay our state fee of \$600.

Step 3:

Please allow 10 business days for the review of your applications.

Step 4:

Go to NABP's website and sign up for the North Carolina MPJE. Once your applications have been reviewed and approved, I will make you eligible to test and you will receive your ATT via email from NABP.

Step 5:

Schedule and take the MPJE. NABP is the one that administers and scores the test and they will report your score within 3-5 business days of sitting for the exam. You will be able to access your score via their website and they will email it to me.

Step 6:

Once I receive a passing MPJE score, I will license you on the next licensure day. I license weekly, on Wednesdays. In order to be licensed on a Wednesday, I need to have received your passing score the Tuesday before.
