21 NCAC 46 .1503 EXPERIENCE IN PHARMACY

- (a) An applicant for license must show that he has received 1500 hours of practical experience under the supervision of a licensed pharmacist which has been acquired after the satisfactory completion of two years of college work. The Board shall accept hours of experience certified by the school from which the applicant has graduated.
- (b) All practical pharmacy experience to be acceptable must be acquired under the general conditions approved by the Board as follows:
- (1) All practical pharmacy experience must be validated through registration in the internship program administered by the Board.
 - (2) Persons working under the supervision of registered pharmacists and expecting to qualify for the registered pharmacist examination must notify the Board within five days of the beginning and the ending of such employment.
 - (3) The Board shall not allow credit for claims of practical experience required under the pharmacy laws, unless such claims can be corroborated by records on file in the Board's office showing the beginning and the ending of the practical experience claimed as supplied by the applicant during this training period.
 - (4) Practical experience shall be credited only when it has been obtained in a location holding a pharmacy permit, or a location approved by the Board for that purpose.
- (c) The pharmacist intern, or student, and the pharmacist preceptor, or supervising pharmacist, shall at all times comply with the Board's rules and the laws governing the practice of pharmacy and the distribution of drugs. Failure of the pharmacist intern to do so is grounds to disqualify the period of experience from counting toward the minimum requirements. A pharmacist preceptor who causes or permits a pharmacist intern to violate the Board's rules or the laws governing the practice of pharmacy and the distribution of drugs forfeits his right to supervise such experience for a period of time determined by the Board. A pharmacist who has been found in violation of laws, rules, or regulations governing the practice of pharmacy and the distribution of drugs cannot serve as a preceptor without the approval by the Board.
- (d) The Board may accept training in pharmacy gained in another state pursuant to internship registration in this or another state if the Board is satisfied that such training is equivalent.
