

DMA Opioid PA –STOP Act Comparison Chart - August 2017

SHORT ACTING OPIOIDS	<u>DMA Current Opioid Safety Criteria</u>	<u>DMA Opioid Safety Criteria Implements 8/27/2017</u>	<u>STOP Act* Enacted 6/29/2017</u>
Maximum dose/day	750 mg morphine equivalents	120 mg morphine equivalents	No MME established
PA required	All opioid prescriptions	<ul style="list-style-type: none"> • Opioid prescriptions written for a quantity greater than 14-day supply (preferred & non-preferred opioids) • All non-preferred opioids • Opioid prescriptions written for a daily dosage greater than the daily dosage limit (preferred and non-preferred opioids) 	NA for PA however initial supply of opioids for acute pain limited to 5 days or 7 days for post-surgical pain <i>effective Jan 1, 2018</i>
PA not required	N/A	<ul style="list-style-type: none"> • Preferred opioids that are less than/equal to 14-day supply and within the daily dosage limit 	NA
Exemptions	Cancer	Cancer	Cancer, palliative care, hospice care, buprenorphine MAT for SUD
Length of PA	12 months	6 months	After initial Rx for 7 days, subsequent Rx may be issued consistent with good standards of care
LONG ACTING OPIOIDS	<u>DMA Current Criteria</u>	<u>DMA Opioid Safety Criteria Implements 8/27/2017</u>	<u>STOP Act</u>
Maximum dose/day	750 mg morphine equivalents	120 mg morphine equivalents	No MME established

PA required	All opioid prescriptions	<ul style="list-style-type: none"> Opioid prescriptions written for a quantity greater than 14-day supply (preferred & non-preferred) All non-preferred opioids Opioid prescriptions written for a daily dosage greater than the daily dosage limit (preferred and non-preferred opioids) 	NA for PA- however initial supply of opioids for acute pain limited to 5 days or 7 days for post-surgical pain effective Jan 1, 2018
PA not required	N/A	<ul style="list-style-type: none"> Preferred opioids that are less than/equal to 14-day supply and within the daily dose limit 	NA
Exemptions	Cancer	Cancer	Cancer, palliative care, hospice care, MAT for SUD
Length of PA	12 months	12 months	
Requirements <i>for all</i> Opioid Prescriptions	<u>DMA Current Criteria</u>	<u>DMA Criteria Opioid Safety Implements 8/27/2017</u>	<u>STOP Act</u>
Required of the prescriber	<ul style="list-style-type: none"> Review NC Medical Board statement on use of controlled substances for treatment of pain Submit justification for exceeding the daily dosage limit 	<ul style="list-style-type: none"> Review NC Medical Board statement on use of controlled substances for treatment of pain Check the CSRS Review CDC Guideline for Prescribing Opioids for chronic pain Submit justification for exceeding the quantity and/or daily dosage limit 	Check 12 month CSRS initially and then quarterly for targeted controlled substances (effective date TDB after CSRS upgrades)
Mid-Level Supervision	NA	NA	PA/NP must personally consult with supervising physician prior to prescribing targeted controlled substances when prescribed in a pain clinic setting or if therapy is expected to exceed 30 days- effective July 1, 2017

Electronic Prescribing of targeted controlled substances	NA	NA	Effective Jan 1, 2020 all targeted controlled substances must be prescribed electronically unless an exemption applies
Expectations –Implications for Pharmacists	DMA Current Criteria	DMA Criteria Opioid Safety Implements 8/27/2017	STOP Act
	<u>NA</u>	<ul style="list-style-type: none"> Increase the Early Refill Threshold from 75 to 85% for opioids/benzodiazepines effective May 1, 2017 	<ul style="list-style-type: none"> Must register for CSRS unless exempted upon 2018 licensing renewal Report <i>all</i> CS dispensing daily into CSRS data center-<u>effective 9/1/2017</u> Required 12 month CSRS review and document for patient receiving targeted CS Rx in certain “red flag” circumstances –<u>effective date TBD for STOP Act; Use of CSRS is an existing NC BOP expectation**</u>

***Strengthen Opioid Misuse Prevention (STOP) Act, S.L. 2017-74** applies to targeted controlled substances only- including C-II and C-III opioid and opioid combination medications; psychostimulants, barbiturates, and benzodiazepines are not included as targeted controlled substances. The STOP Act is administered via NC-DHHS and Medical/Pharmacy Boards and applies to all providers and pharmacies in North Carolina.

DMA Opioid Safety Policy – oversight by NC Division of Medical Assistance and applies to all NC Medicaid medical and pharmacy providers, and NC Medicaid beneficiaries. DMA policy targets “Analgesics, Opioid; Analgesics, Opioid Agonist, NSAID Combination” (C-II and C-III opioids and opioid combination products, excluding tramadol).
