| tramadol-acetaminophen tablet (generic for Ultracet)                   | 37.5/325                             | 0.1   | 40                       | 5                  | 30                  |

**\*MME/Day = (qty dispensed/days supply X MG of agent in dosage form) X MME conversion factor (MME rounded up to nearest whole number)**

**(CDC Recommends 90 MME/day or below for patient safety -DMA threshold is 120 MME/day or below to avoid PA request submission)**
